

Figure 1: Percentage of respondents in each relationship category. The chart shows that while 40% of all respondents are in a relationship for 10 years or more, only 35% of those who have been in a relationship for 10 years or more are in that category. Conversely, 15% of all respondents are not in a relationship, while only 10% of those who have been in a relationship for 10 years or more are not in a relationship.
